BULL BARS

All IRONMAN 4X4 Nudge and Bull Bars are designed and tested to meet Australian Design Rule Standards and maintain all the factory safety features of the vehicle.

Our entire range is developed from high-strength 3-4mm aluminium, featuring steel cradles and robot welded with precision.

All IRONMAN 4X4 bars are e-coated for rust prevention and finished with a hard wearing black powder coat finish.

SPORTS BAR

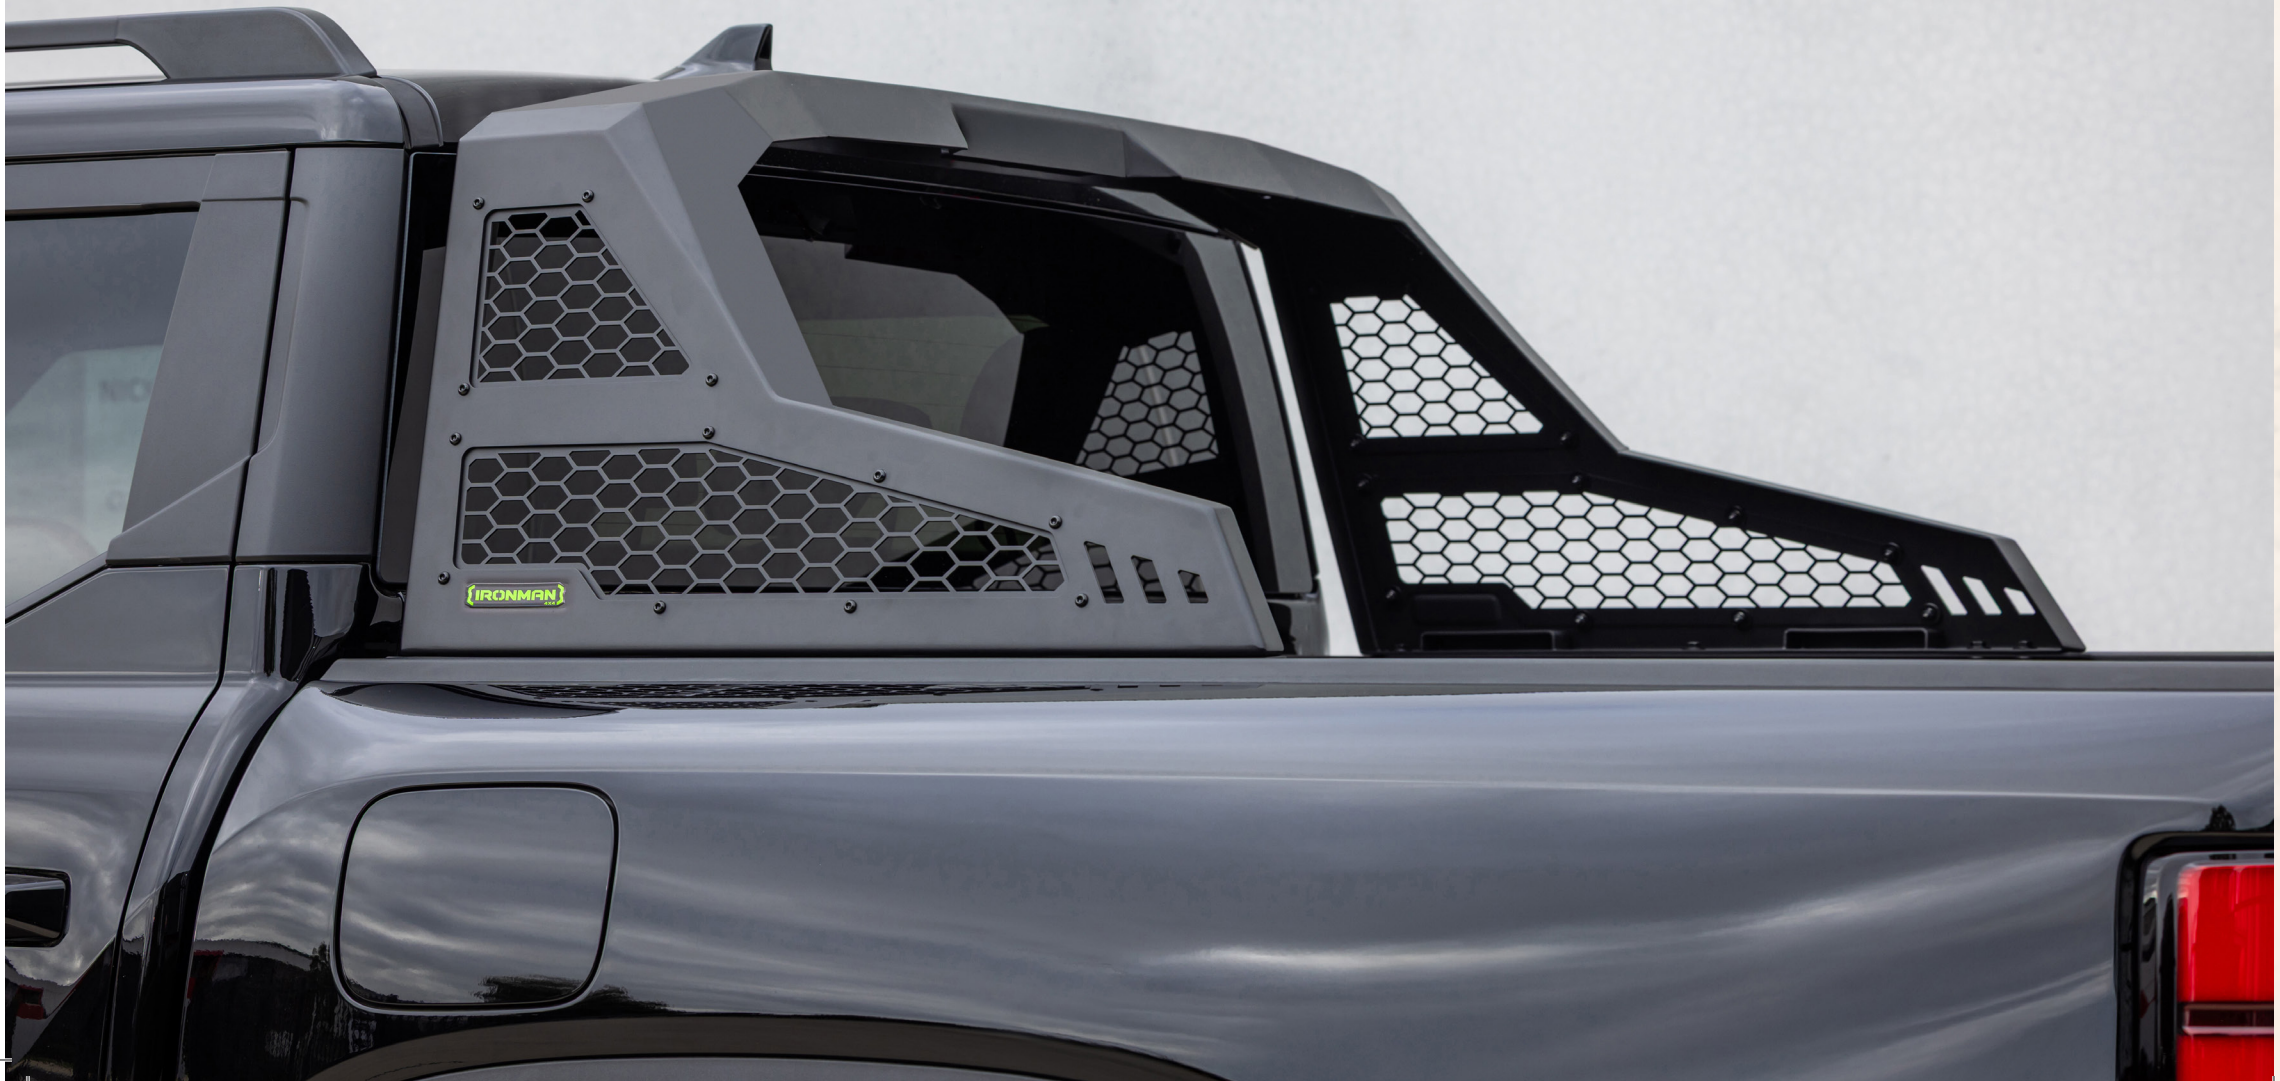

SKU AIM24SK07

- Lightweight aluminium construction
- Flush mount to existing bed rail
- Compatible with or without Slide-Away

Note: Fits both Slide-Away and bare tub options.

WARRANTY

ALUMINIUM DRAWER SYSTEMS

The Roller Drawer System features a patented roller-bearing slide system, which requires little to no maintenance for the lifetime of the drawers.

Additionally, all drawers feature a lock-out mechanism when extended to allow the convenient use of the drawers on an incline without having to hold the drawer open or worry about the drawer slamming shut on you.

Despite the weight savings of the aluminium construction, the new Roller Drawer System is batting above its average for storage capacity and roller-top strength.

Full length, full height drawers are capable of holding 120kg per drawer (240kg combined) and the roll-top flooring, when fully extended can handle a class-leading 100kg. Which can amply handle a fully loaded fridge/freezer.

- Available in a full-height and a mid-height option.
- **Ext. Dimensions:**
 - Full height (mm) 500(w) x 280(h) x 1250(d)
 - Mid height (mm) 500(w) x 190(h) x 1250(d)
- Loading capacity – 120kg
- Integrated lighting & tie-down tracks
- Lockable*
- Full side edge-to-edge wing kits

* Full height only.
